

BLOOD RELATION PRACTICE HANDOUT

EXPLANATIONS

TYPE-I

Note : In solutions of questions '+' sign denote 'males' and '-' sign denotes 'females'.

- (3) A is the daughter of B.
B is the mother of C.
Therefore, B is the mother of A and C.
D is the brother of C.
Therefore, D is the son of B.
Thus, D is the brother of A.

PICTORIAL METHOD

- (2) P is brother of Q. Therefore, P is a male.
R is mother of P and Q and R is daughter of S. S is the son of T.
S is the grandfather of P.
Therefore, P is great grandson of T.

- (4) A is the brother of B.
Therefore, A is a male.
C is the father of D.
Therefore, C is a male.
E is the mother of B.
Therefore, E is a female.
A and D are brothers.
Therefore, D is a male.

Deductions

- A and D are brothers of B.
 - C is the father of A, B and D.
 - C is the mother of A, B and D.
 - E is the wife of C.
- (1) B is the brother of C.
C is the son of D.
A is the sister of B and C.

Thus, D is either father or mother of A, B and C.

According to the given options, we are left with no choice but to select option (1) as answer.

- (2) Although the sex of A is not mentioned clearly in the question. But, on the basis of given information it seems that A is daughter of D.
- (4) A's daughter is the sister of R and S.
B is sister of A.
Therefore, B is aunt of S.

- (1) B is the son of C and grandson of A.
E is sister of B.
Therefore, A is the grandfather of E.

Here sex of C is not known.

Hence there are two possibilities:

- If C is female then A is grandfather (maternal) of E (and also B) and
- If C is male then A is grandfather (paternal) of E (and also B).

Clearly, D is father of A's mother (C) i.e., grandfather (maternal) of A.

- (1) E is the daughter of B and D is brother of E. Therefore, D is son of B and A is mother of B.
Thus, A is grandmother of D.

So C and B are daughters of D.
So, A is uncle of D's daughter (B and) C.

Here A's sex is not clear, hence there are two possibilities :

- When A is female — then no information is available regarding uncle (or father's brother) of A's Son (G) and daughter (C).

Or

- When A is male — then F is uncle (brother of father A) of G (and C).

Hence this is correct answer.

Clearly, mother of A (and B)'s father C (and his sister D) is E.
⇒ B is E's granddaughter.

Here B's sex is not clear but C and D both are children (daughter and son respectively) of A (male) and B.

Hence, obviously B is A's wife (i.e. female). Hence B is sister in law (Bhabhi) of brother (E) of her husband (A).

Though sex of D is not clear but clearly E⁺ is D's cousin.

Obviously, O is the husband of P, hence P is wife of O. Now M is son of P. So M's parents are P (mother) and O (father). Hence M is O's son.

Clearly, S is maternal uncle (i.e., brother of mother) of X (and Y). So there are two possibilities :

(i) When T is male — then T will also be maternal uncle of X (and Y) i.e., he will be second brother in law of R.
→ Option not given.

(ii) When T is female — then either T will herself be mother of X and Y or will be sister of X and Y's mother. So either 'T' will be wife of R (i.e., father of X and Y) or 'T' will be sister in law of R. Only R's wife is given in options — option (2).

From above figure it is clear that D is grand father (maternal, i.e., mother's father) of A and B.

C's father is A but C is not son of A.

Hence, C is daughter of A.

Clearly, A is father of E, D and B of which E and D are sons and B's sex is not given and C is B's daughter hence two possibilities exist :

(i) When B is female — then E (and also D) is maternal uncle of C. So option (3).

(ii) When B is male — then E (and also D) is paternal uncle of C.
Hence C and E are niece and uncle respectively.

Option (3) is correct.

Clearly P is husband (male then Q is wife (female) and R is Q's mother. So R is P's mother-in-law.

Clearly, 'R' and 'S' are daughters of P and ♂ will be son of P.

So, Q is uncle (paternal) of his brother (P's) children 'S', ♂ and R.

23. (4) X is the husband of Y. Therefore Y is the wife of X. W is the daughter of X and Y. Z is the husband of W. N is the daughter of Z and W. Thus, N is the granddaughter of Y.

24. (1) B is the paternal uncle of C and C is the daughter of A. Hence B is the brother of A.

25. (2) Mother of A is sister of B. C is the daughter of A's mother.

The sex of B is not given.

Therefore, B could be either material uncle or aunt of C.

Considering all the four options the most appropriate is option (2).

It is clear from above diagram that F is, son of D's daughter C's son of A.

So, F is great grandson of D.

27. (2) D is the father of C.

C is mother of A and B.

Therefore, B is granddaughter of D.

28. (4) A is brother of B.

C is mother of A.

D is father of C.

F is son of A.

A is grandfather of F's child.

Therefore, B is grand-father of F's child.

Note: The sex of B is not known. But considering the given options we must opt (4) as answer.

29. (3) A is daughter of B.

B is the mother of A and C.

D is brother of A and C.

30. (2) D is father of B and C. A is brother of D.

Therefore, C is niece of A.

31. (3) D is the father of C.
C is mother of A and B.
E is son of B.
Therefore, D is great grandfather of E.
32. (4) X and Y are children of A. Y is not son of A. Therefore, Y is daughter of A.
33. (2) E is the son of B.
A is the brother of B.
Therefore, E is nephew of A.

Clearly, P is son of J. But J's sex is not known. Hence, there are two possibilities :

- (i) When J is female — then P's (maternal) uncle is K.
(ii) When J is male — then P's (paternal) uncle is K.

Hence in both cases P's uncle (maternal or paternal) is K.

35. (1)

Clearly C is daughter of D's mother A's sister (B) i.e., C is D's cousin.

Clearly, Y is S (and R's) mother's brother. i.e., Y is uncle (maternal of S (and R's)).

Clearly B is sister of F's father i.e., B is aunt of F.

Obviously, D is A's mother B (and her sister C's) brother. i.e, D is maternal uncle of A.

Obviously P and M are parents (father and mother respectively) of T. Hence P and M are husband-wife. Hence P is son-in-law of M's mother/father 'K'.

Obviously E's father is B and A is brother of (E's father) B hence, E is niece of A.

41. (2) B is sister of F.

Therefore, B is sister-in-law of M.

42. (1) A is mother of B and D.

43. (1) E is mother of C and D.

C is father of A and B.

Therefore, B is the granddaughter of E.

44. (1) L is son of R and R is daughter of P.

Therefore, L is grandson of P.

45. (1) The son of P is brother of R and S.

Q is uncle of R and S.

46. (3) C is the mother of A and B.

A is son of C.

47. (4) G is the husband of A.

A is the mother of D.

Hence, G is the father of D.

48. (2) The mothers of A and B are sisters. Therefore, A and B are cousins.

49. (1) Husband of B's wife means B. A is the brother B. Therefore, A is the brother of C.

50. (3) A's son is the brother of C and D. Therefore, C is the daughter of A. Now, B is the uncle of C.

51. (4) A is sister of B.

C is mother of A and B.

D is father of C.

So, A is granddaughter of D.

52. (3) T is a teacher. He is father of R and U.

T is husband of S, who is doctor.

Q is husband of P. P is housewife.

Q is father of T.

Grandson of the family is an engineer.

Grand daughter of the family is a student.

53. (3) C is the father B.

A is the wife of C.

B, E and F are sons of A and C.

D is a girl.

Male members \Rightarrow A, B, E and F.

54. (1) The mother of A is sister of B. Therefore, A may be niece of B.

55. (4) C and D are brothers.

C is the brother of A.

A and B are married couple.
